After eye contact :

Rinse opened eye for several minutes under water or neutral saline solution for at least 15 minutes. Seek medical attention.

After skin contact :

Take off immediately all contaminated clothing, and wash immediately with plenty of water, and with soap. If skin irritation persists seek medical attention.

After inhalation :

Remove casualty to fresh air and keep at rest

Most important symptoms and effects, both acute and delayed :

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

V – FIRE FIGHTING MEASURES

Suitable extinguishing agents :

CO2, extinguishing powder

Special Firefighting Procedures :

Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.

Unusual Fire and Explosion Hazards : Vapours may travel back to ignition source. Closed containers exposed to heat may explode. Extremely flammable.

VI – ACCIDENTAL RELEASE MESURES

Steps to Take in case Material is released or spilled : Ventilate area of spill. Eliminate all source of ignition. Remove all non-essential personnel from area. Clean-up personnel should wear proper protective equipment and clothing. Absorb material with suitable absorbent and containerize for disposal.

VII – HANDLING AND STORAGE

Precaution for safe Handling :

Normal measures for preventive fire protection

Conditions for safe storage, including any incompatibilities :

Store in a cool place. Keep container tightly closed in a dry and well-ventilated place.

Containers which are opened must be carefully resealed and kept upright to prevent leakage.

VIII – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure controls :

Appropriate engineering controls

General industrial hygiene practice.

Personal protective equipment :

Personal Protection- Respiratory :

Respiratory protection not required. For nuisance exposures use type OV/AG (US) or type ABEK (EU EN 14387) respirator cartridges. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Personal Protection - Eye :

Wear chemical tight goggles. Provide an eyewash station immediately accessible to the work area. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

Personal Protection - Hand :

The selected protective gloves have to satisfy the specifications of EU directive 89/686/EEC and the standard EN374 derived from it. Handle with gloves. Gloves must be inspected prior to use.
